

# Power Door Lock System (Model 850C)

The ATech Power Door Lock Trainer (model 850C) is designed to teach computer and network controlled automotive door lock and theft deterrent system operation. This trainer allows for instructor demonstration, student hands-on reinforcement and troubleshooting practice. Powered by a 12VDC automotive battery or a 12VDC/23A power supply (not included).

## Features:

- New vehicle components, connectors, and factory wire colors.
- The key fob can be used to lock and unlock the doors.
- Built-in horn (buzzer).
- Provides an advanced level of instruction by duplicating actual on-vehicle troubleshooting procedures.
- Intermittent and hard faults can be inserted using the Instructor Management Program (IMP) via a computer connected to the trainer or over the ATech Lab System (ALS).
- Hard faults can be inserted by using the built in keypad on the Power Door Lock System Trainer.
- Ability to perform actual service manual test procedures.
- Compatible with ATech's Instructor Management Program (IMP).
- Courseware includes Instructor Guide, Student Manual, and Service Manual Information.
- Battery posts are protected against polarity reversal.
- Includes internal power supply for uninterrupted fault operation.
- User interface displays built-in scan tool data.
